HAND WORK SUPERSEDING.

The fact is becoming more thoroughly demonstrated as the years go by that the old style products of handmoulded brick is superseding the wire cut or machine made brick quite rapidly. The machine product is now selling from \$6 to \$7 per 1,000, while the hand moulded readily bring \$10 per 1,000 and are in great demand. Two yards along "Brick Yord Bend" are already making a specialty or this line -Miror's at Empire, and the Claymont works at Zalia, W. Va. In fact these two firms are away behind with orders, so great is the demand. Other yards are constantly adding to their hand moulding incilities, and the avocation of the old hand moulder is fast

The reasons for the demand are manifold, but the most potent are that machine made brick will not stand tae fire when used in furnace and boiler lipings, where they come in direct contact with the heat. They easily chip at the corners, and finally go to pieces. The hand moulded being more compact and solidly made stand all day; light south to southwest winds. such tests and last many years longer. THE WILLIS TAX.

A fee of \$1,000 was paid by the East Liverpool Potteries company last week to the secretary of state, which represents the tax imposed on its capital stock of \$1,000,000 under the Willis law. A similar fee will be paid by the Knowles, Taylor & Knowles company, which has the same capitalization. These are the only manufacturing concerns in East Liverpool which have a capital stock of a million. The new tax laws are yielding greater returns than originally anticipated. The state is wealthier now than ever before.

This tax is considered unjust by many manufacturers. A prominent local boss potter gives it as the reason for the continued non-expansion of the industry in the city.

Evansville Under Martial Law.

Evansville, Ind., July 8,-Rioting has given place to a few comparatively quiet hours, which may be due largely to the fact that the town is practically under martial law. Little business was transacted during the day. A company of state militia has arrived from Terre Haute and other companies are expected. After conferences with responsible citizens, Mayor Covert has ordered all saloons closed. Fred Kappler, aged 15 years, who was shot by militiamen is dead.

Early indiscretions, later excess, exposure to contagious diseases all helped to break down my system. When I commenced to realize my condition I was almost frantic. Doctor after doctor treated me but only gave me relief—not a cure. Hot Springs helped me, but did not cure me. The symptoms always returned. Mercury and Potash drove the poison into my system instead of driving it out. I bless the day your New Method Treatment was recommended to me. I investigated who you were first, and finding you had over 25 years' experience and responsible financially. I gave you my case under a guarantee. SUFFRAGE FOR THE NEGRO MUST WAIT FOR EDUCATION

By Rev. Dr. LYMAN ABBOTT of New York

HE NEGRO QUESTION IS A NATIONAL PROB-LEM, NOT A SECTIONAL ONE. The north and the south combined to bring the negro here, and because we in the north couldn't use him in our industrial development we let him go to the south. Later the conscience of the north, re-enforced by commer-

cial interests, it must be admitted, abolished slavery. By national action we made the solution of the negro problem a national question.

IT IS CLEAR THAT WE OF THE NORTH CAN'T COMPEL BY FORCE THE ELEVATION OF THE BLACK MAN. WITH THE SWORD YOU CAN SEVER MANACLES, BUT YOU CANNOT LIFT UP A MAN BY THE SAME MEDIUM.

We must not go into the south with advice in a holier-than-thou spirit nor acting as though we belonged to the wiser-

than-thou class. Neither force nor Phariseeism ever converted a race.

SUFFRAGE MUST WAIT FOR EDUCA-TION. EDUCATION IS PRIMARY; POLIT-ICAL RIGHTS ARE SECONDARY. WE HAVE TRIED THE EXPERIMENT OF GIVING TO THE NEGRO SUFFRAGE FIRST AND EDU-CATION AFTERWARD, AND BITTERLY HAS THE COUNTRY SUFFERED FROM

OUR BLUNDER. No man ever should receive the power to control other men until he is able to exercise such control.

The negro race is at the present time inferior to the Anglo-Saxon race. We have ten centuries of civilization behind us. They have had countless centuries of barbarism and two centuries of servitude behind them. The human race slowly emerges from the brute. If we give power to the brute, the result will be wreck and ruin.

I plead for the honor of the American people. Fifteen million men, ignorant, vicious, dishonest and intemperate, will be a terrible millstone to hang around the neck of the nation. Fifteen million men, chaste, honest, industrious—what a power for the nation!

There is a well-defined rumor affoat that the Manufacturers' gas corpora tion is shaping up to discriminate in its rates in this city. Report has it the potteries are to be taken care of in the price charged for gas; which, if true, will prove a boon to the great industry of East Liverpool. But it is added that the individual consumers will have to "pay the freight" at a much higher rate. It is a sad proposition if the citizens shall have to sub mit to such practices from the monopoly without attempting some method of redress.

Genuine advertising is that which pulls. When it pulls it pays the advertiser and the medium in which it appears. Advertising in newspapers it rightly done, both pulls and pay There is no better medium for the ad-

vertiser than the newspaper; in fact, nothing else in the way of publicit ouches it. Advertising, in its true ense, should not only supply a do and, but should also create even tha emand itself. Advertisements in the News Review are forcefully written. eleverly set to catch the eye, and sen into practically all the homes of East Liverpool and neighboring places. That's why News Review advertising pays the people who pay for it. When you see the pull, the only real value in advertising, it's a safe guess the News Review was around.

Congressman Gill's self-inflicted r irement from political life came as somewhat of a surprise. He gives poor health as the cause for his action and states that he has been considering the retreat into private life for nearly year. Where there is one man to give up a political job there is always a dozen anxious to bleed for the dear public. Mr. Gill's case will prove no exception to the rule, and there will be a stir and fuss until his successor is elected.

In the city of Youngstown, a city of some proportions close to wicked Niles, from Friday night to Monday morning, over 200 arrests were made by the police. Youngstown's officers must be on "the make," or else there were few sober people in the city on the Fourth.

The importance of holding a special session of city council at once to act on matters which are likely to go by default, is, or ought to be, as apparent to city officials as it is to citizens.

Death of "Poolroom Queen."

New York, July 8 .- "Gussie" Mc Kee, well known in this city as the "poolroom queen," died from cancer of the stomach. Mrs. McKee was formerly the wife of Lieutenant Martin, of the United States army, who was cashiered for falsifying his accounts. Mrs. McKee was born in Lyvonia, Ind., 26 years ago, graduated from the Southern Indiana normal college at the age of 16, and taught school in Lyvonia for three years. Later she removed to Chicago, where she secured a position as a Western Union telegraph operator. Five years ago she came to New York and soon after that gained notoriety in the raiding of a poolroom in which, her relatives declare, she had but a slight interest and that she rarely frequented the race tracks. During the last few years she toured the country as leading lady in several theatrical com-

Striking Smeltermen Enjoined. Denver, July 8 .- On petition of th American Smelting and Refining company, a sweeping injunction was grant ed by District Judge Walter Dixon, forbidding the striking smeltermen and the officers of the Western Federation of Miners and other labor organizations from interfering with the operation of the Grant and Globe smelters. The defendants are enjoined from posting pickets and from publishing orders, statements, rules or directions commanding any employe of the plaintiff not to continue work or inducing any persons not to enter the employment of the plaintiff.

Made Strong Fight for Liberty.

Louisville, July 8.-The long fight made by J. M. McKnight, the former banker, to keep out of prison, ended in defeat when in the United States the penitentiary. He had five trials valley. and four verdicts were against him. His trouble with the government grows out of the wrecking of the German National bank. He was convicted of the misuse of the bank's funds while president.

Speech Urging the Construction of New Reservoir Caused All the Trouble.

Monroe Patterson was given the marble heart" by council last night when that body refused to assist him n any way towards the construction of a reservoir in the rear of his pottery here for second supply water

Mr. Patterson addressed council at some length on the matter, stating that \$10,000 would be the cost of his cheme. James Bissett, member from the Fourth ward, made a motion to adjourn in the very midst of Mr. Patterson's speech, and it only lacked one vote of carrying.

Mr. Patterson then modified his request and asked for only \$2,000, which was voted down quickly and he retired with a tired feeling.

It was a regular meeting of council and considerable business was transacted.

BLOODY BORDER WAR

Battle Still Called to Mind by Students of Colonial History.

BRILLIANT VICTORY ACHIEVED.

Indians Fled Before Advance of Rangers-Both Sides Suffer Heavily. Fight Took Place at Mouth of Kanawha in West Virginia.

Just on the eve before the outbreak of the Revolution there occurred a border war in West Virginia which has been so overshadowed by the greater conflict as to be almost forgotten by all save students of colonial history. It is by some called Cresap's

war,but is better known as Dunmore's The treaty following the defeat of Pontiac's conspiracy, in 1764, had semewhat helped affairs along the Virginia and Ohio border, but it had not been perfectly kept by either the Indians or the white men; and the Indians had kept it less than their white neighbors had done. Finally in the spring of 1774, came the attack by Colonel Cresap, which is known as the Captive Affair. Then followed the murder at Yellow Creek of the family of the Iroquois chief, Tah-gah-jute, known to fame as Logan. This massacre was led by a villain named Greathouse, and was most cruel and unprovoked. It turned Logan from a friend of the whites into an avenging fiend, and led to an immediate outbreak of frontier atrocities. Lord Dunmore, governor of Virginia, determin- hotable battle by Kanawha's mouth ed on a war, and ordered General An- a battle which never received the atdrew Lewis to assemble an army at the Great Levels of the Greenbriar. Lexington and Bunker Hill were so now the site of Lewisburg, while he close at hand, should gather another force at, Frederick. Lewis was to march down to Kanawha to its function with the Ohio where Dunmore was to meet him. As the royal governor did not do as he had promised the campaign with its battle and victory, fell to the lot of Golden Maxim led for the greater part Lewis and his borderers. His army was a famous assemblage. Among those present were Evan Shelby, Isaac Shelby, Benjamin Harrison, Valentine Sevier, James Robertson, George Rogers Clark, Simon Kenton, Daniel Morgan, and even the infamous Simon Stockholm, July 8.-There is no Girty. Delehanty Believed to Have Sulcided

Washington, July 8.-Word received in Washington leaves little doubt that Ed Delehanty, the famous ball player, committed suicide or was accidentally drowned at Fort Erie. Ont., on the night of July 2. He left Detroit that day in a very despondent frame of mind after several days of dissipation. A letter received by Mrs. Delehanty says that an unknown man on the night in question had a difficulty with a bridge tender at Fort Eric and a moment or two later fell or jumped into the river. A dress suit case was recovered and in this was found baseball ticket No. 26, issued by the Washington club to Delehanty. It will be remembered that Maley played with a team under the name of Cunningham. This nom de plume CHESTER LOST was applied to Maley under circumstances quite peculiar. It is a rule of the college that no man can play on the team who is not a member of the school, or who cannot produce a scholar's certificate.

ENGINEER DISREGARDS ORDERS

Victims of Weck Mostly Colored People-Scene of Panic Follows Crash. Man Responsible for Accident Escapes Uninjured.

Washington, July 8 .- Twenty-three persons were killed and hine persons injured in a head-on collision on the Virginia midland division of the Southern railway at Rock Fish, Va. Passenger train No. 35 dashed into a local freight standing on the main line of the road at that point, wrecking both engines and the baggage and express cars of No. 35. The baggage car and the second-class passenger coach immediately following it telescoped. The coach was occupied mostly by colored people. The casualties thus far reported in detail are as follows:

35; Engineer McCormick, who was riding as a passenger on the freight; a colored fireman on freight.

The freight train was in charge of Conductor Brubeck and Engineer Hale and at the time of the accident was on the return run from Lynch burg to Charlottesville. Rock Fish station is midway between the two points and the track there is a single one. Engineer Hale had orders to get out of the way of the fast passenger train, but for some reason which has not yet been explained he had overstayed his time and had failed to take a siding so that the passenger train could pass. The trains came together with a horrible crash and a fearful scene of panic ensued when the occupants of the cars realized what had occurred.

No. 35 was in charge of Engineer 78. Philadelphia, Pa. Davis and Conductor Mays. Engineer McCormick, who was a passenger on the freight train, was going to Charlottesville to take a train south at the time he met his death. The engineer of the freight escaped without injury. It is estimated here that there were in all probability 120 passengers on the train, including those from Boston and intermediate points.

It was at first reported that Baggagemaster Payne, of train No. 35, had met his death in the wreck. Later reports, however, show that this is incorrect. He was caught under one of the coaches and was badly stunned, but later he revived and probably will recover. It is now said to be almost certain that of those killed 19 were FOR SALE-A Remington Standard colored persons, as the second-class coach which was telescoped was occupied almost exclusively by them.

Later advices from the scene of the reck are that the freight train which for six minutes longer than the orders directed when the collision occured

IF YOU HAVE PAIN IN YOUR BACK

Do Not Be Deceived. You have Kidney Trouble, and You Do Not Need a Physician to Tell You So.

Pain in the back is an almost infallible sign of kidney disease; a surer sign is the condition of your urine. If you have a pain in the back, then look to the conlition of your urine. It is easily done. Take a glass or tumbler and fill it with urine; after it has stood 24 hours, if it has a sediment, if it is milky or cloudy, if it is pale or discolored, stringy or ropy, your kidneys and bladder are in a dangerous condition and need immediate attention, or the consequences may prove fatal. Dr. David Kennedy's Favorite Remedy is the one medicine that really cures all diseases of the kidneys, liver, bladder and blood, rheumatism, dyspepsia and chronic constipation, and it will take you but a short trial to convince yourself of its wonderful curative power. G. F. Sammer of No. 409 Tioga street, Syracuse, N. Y., in a recent letter says:

"I was afflicted for years with severe pains in my back and kid-I tried many doctors and many medicines, but got no relief. I bought a bottle of Dr. David Kennedy's Favorite Remedy and it has entirely cured me."

It is for sale by all druggists in the New 50 Cent Size and the regular .00 size bottles—less than a cent a dose. Sample bottle-enough for trial, free by mail. Dr. David Kennedy Corporation, Rondout, N. Y. Dr. David Kennedy's Cherry Balsam best for Colds, Coughs, Consumption. 25c, 50c, \$1.00.

All Excluded from Room. When the operation took place nobody was allowed in the room beside the doctors except Pope Leo's vale; Pio Centra: even his nephew. Count Pecci. left the room to await with exresult. The doctors, desiring a strong light, had the window widely opened. but as it faces the bed the light offended the weak eyes of the pontiff, so that it was thought desirable that he should reverse his position. As soon as this was proposed the pope himself made a movement, showing again that spirit of activity and determination which seems constantly to inspire him. Dr. Mazzoni, however, did not give him time to leave the bed, but taking him in his arms literally turned the pontiff about. Pope Leo remained sitting up in bed during the whole time of the operation without need of support. When Dr. Mazzoni substituted the pravaz needla with a potain aspirator the pope did not even notice it, going through the whole affair without emitting the slightest lament and without showing my feeling of pain. He was extremely pale, almost diaphanous and some what tremulous. As soon as the operation was closed his holiness felt much relieved. His eye from an expression of languid melancholy assumed its usual vivacity, illuminating the emaciated face. Dr. Mazzoni at once administered a cordial which the pontiff took willingly, thanking him with a grateful look for the brave struggle to save his life. He afterwards expressed a desire to see the liquid which had been extracted from his thorax. Both doctors assured him that his wish would be gratified later. The pontiff then asked for minute of

Russian Situation and Alaska Boundary Question Principal Subjects. Hanna Leaves for Bar Harbor-Politics Has Nothing to Do With Visit.

Oyster Bay, July 8.-Secretary of State John Hay is a guest of President Roosevelt at Sagamore Hill. Matters of grave importance to this country in its international relations were under consideration. The conclusions reached at the conference are not disclosed, both the president and Secretary Hay regarding it as inexpedient at this time to discuss for publication the details of their work. To two subjects of serious concern most of their attention was turned. They considered in all its phases the Russian situation, particularly with respect to the B'Nai B'Rith petition, which it has been determined would be forwarded to the Russian government, and the Alaskan boundary question, which next month is to be taken up for what is hoped may be final adjustment by the American and British commission in London.

For the Place and the Contest Prom-Reached - Interesting Review of Former Political Campaign.

From a Staff Correspondent.

Columbus, July 8.—The resignation of Hon. Joseph J. Gill, of Steubenville. as congressman of the Sixteenth dis trict, has furnished the Holiticians with food for speculation and has set them wondering what step he may take next. Having acquired an organ at the state capital, the Dispatch, it has been intimated that he may move to Columbus in order that he may take

a more active part in state politics But Mr. Gill says his resignation was forced by ill health and gives ou the impression he does not desire to enter into politics in a strenuous way If it is his purpose to remain in poli tics it would seem strange that he should give up an office which carries with it such prestige and in which he wholly unexpected and has caused much guessing.

There will be an interesting fight for Mr. Gill's place. Among those Chief Wyman. HAND WORK SUPERSEDING.

The fact is becoming more thorough ly demonstrated as the years go by that the old style products of handmoulded brick is superseding the wire cut or machine made brick quite rapidly. The machine product is now selling from \$6 to \$7 per 1,000, while the hand moulded readily bring \$10 per 1,000 and are in great demand. Two yards along "Brick Yard Bend" are already making a specialty or this line -Miror's at Empire, and the Claymont works at Zalla, W. Va. In fact these two firms are away behind with orders, so great is the demand. Other yards are constantly adding to their hand moulding facilities, and the avocation of the old hand moulder is fast

The reasons for the demand are manifold, but the most potent are that machine made brick will not stand the fire when used in furnace and boil er lipings, where they come in direct contact with the heat. HALF OUR ILLS ARE CATARRH.

[Letters From Two Prominent Men.]

Congressman Irvine Dungan of Jackson, O., elected to the Fifty-second Congress as a Democrat, in a recent letter from Washington, D. C., says:

"I desire to join with my many friends in recommending your inval-uable remedy, Peruna, to anyone in need of an invigorating tonic, and whose system is run down by catarrhai troubles. Peruna is a permanent and effective cure for catarrh and I would advise all who are afflicted with this disease to try this remarkable remedy."-Irvine Dungan.

Everybody is subject to catarrh. Peruna cures catarrh, acute or chronic, wherever located.

Hon. Thomas Gahan of Chicago, member of the National Committee of the Democratic party, writes as follows:

"I was afflicted with catarrh for fourteen years and though I tried many remedies and applied to several doctors I was not able to find a cure. I took

SUFFRAGE FOR THE NEGRO MUST WAIT FOR EDUCATION

By Rev. Dr. LYMAN ABBOTT of New York

HE NEGRO QUESTION IS A NATIONAL PROB-LEM, NOT A SECTIONAL ONE. The north and the south combined to bring the negro here, and because we in the north couldn't use him in our industrial development we let him go to the south. Later the conscience of the north, re-enforced by commer-

cial interests, it must be admitted, abolished slavery. By national action we made the solution of the negro problem a national question.

IT IS CLEAR THAT WE OF THE NORTH CAN'T COMPEL BY FORCE THE ELEVATION OF THE BLACK MAN. WITH THE SWORD YOU CAN SEVER MANACLES, BUT YOU CANNOT LIFT UP A MAN BY THE SAME MEDIUM.

We must not go into the south with advice in a holier-than-thou spirit nor acting as though we belonged to the wiserthan-thou class. Neither force nor Phariseeism ever

converted a race. SUFFRAGE MUST WAIT FOR EDUCA-TION. EDUCATION IS PRIMARY; POLIT-ICAL RIGHTS ARE SECONDARY. WE HAVE TRIED THE EXPERIMENT OF GIVING TO THE NEGRO SUFFRAGE FIRST AND EDU-

CATION AFTERWARD, AND BITTERLY

HAS THE COUNTRY SUFFERED FROM

OUR BLUNDER. No man ever should receive the power to control other men until he is able to exercise such control.

The negro race is at the present time inferior to the Anglo-Saxon race. We have ten centuries of civilization behind us. They have had countless centuries of barbarism and two centuries of servitude behind them. The human race slowly emerges from the brute. If we give power to the brute, the result will be wreck and ruin.

I plead for the honor of the American people. Fifteen million men, ignorant, vicious, dishonest and intemperate, will be a terrible millstone to hang around the neck of the nation. Fifteen million men, chaste, honest, industrious-what a power for the nation!

There is a well-defined rumor affoat that the Manufacturers' gas corpora tion is shaping up to discriminate in its rates in this city. Report has the potteries are to be taken care of in the price charged for gas; which, it true, will prove a boon to the great in dustry of East Liverpool. But it is added that the individual consumers will have to "pay the freight" at much higher rate. It is a sad propo sition if the citizens shall have to sub mit to such practices from the monor oly without attempting some method of redress.

Genuine advertising is that which pulls. When it pulls it pays the advertiser and the medium in which it appears. Advertising in newspapers. it rightly done, both pulls and pays There to no better medium for the ad-

BORDER WAR BLOODY

Battle Still Called to Mind by Students of Colonial History.

BRILLIANT VICTORY ACHIEVED.

Indians Fled Before Advance of Ran gers-Both Sides Suffer Heavily. Fight Took Place at Mouth of Kanawha in West Virginia.

Just on the eve before the outbreak of the Revolution there occurred a border war in West Virginia which has been so overshadowed by the greater conflict as to be almost for gotten by all save students of colonial history. It is by some called Cresap's war,but is better known as Dunmore's

The treaty following the defeat of Pontiac's conspiracy, in 1764, had semewhat helped affairs along the Virginia and Ohio border, but it had not been perfectly kept by either the Indians or the white men; and the Indians had kept it less than their white neighbors had done. Finally, in the spring of 1774, came the attack by Colonel Cresap, which is known as the Captive Affair. Then followed the murder at Yellow Creek of the family of the Iroquois chief, Tah-gah-jute known to fame as Logan. This massacre was led by a villain named Greathouse, and was most cruel and enprovoked. It turned Logan from a friend of the whites into an avenging Revolution, and Dunmore and the flend, and led to an immediate outbreak of frontier atrocities. Lord Dunmore, governor of Virginia, determined on a war, and ordered General Andrew Lewis to assemble an army at the Great Levels of the Greenbriar, Lexington and Bunker Hill were so day in a very despondent frame of now the site of Lewisburg, while he should gather another force at Frederick. C. L. SMITH. The Good Old Times.

We often hear people speaking of the good old times," as if life in colonial days was a summer dream of lazy luxury. And sometimes we hea: somebody comparing the present day life with that of the former times, much to the detriment of these days. Such an idea can grow out of nothing but ignorance. It flourishes rankly in the mind of the perosn who gets his the glamorous pages of historical novels, and is as incorrect as an idea well can be. The more one learns of the real life of those "piping days" the less attraction it seems, and the

more glad is one that he lives now instead of then.

No. 35 was in charge of Engineer Davis and Conductor Mays. Engineer McCormick, who was a passenger on the freight train, was going to Charlottesville to take a train south at the time he met his death. The engineer of the freight escaped without injury. It is estimated here that there were in all probability 120 passengers on the train, including those from Boston and intermediate points.

It was at first reported that Baggagemaster Payne, of train No. 35 had met his death in the wreck. Later reports, however, show that this is in correct. He was caught under one of the coaches and was badly stunned. but later he revived and probably will recover. It is now said to be almost certain that of those killed 19 were FOR SALE-A Remington Standard colored persons, as the second-class coach which was telescoped was occupied almost exclusively by them.

Later advices from the scene of the wreck are that the freight train which was on the main track, had been there for six minutes longer than the orders directed when the collision occured

Do Not Be Deceived. You have Kidney Trouble, and You Do Not Need a Physician to Tell You So.

Pain in the back is an almost infallible sign of kidney disease; a surer sign is the condition of your urine. If you have a pain in the back, then look to the condition of your urine. It is easily done. Take a glass or tumbler and fill it with urine; after it has stood 24 hours, if it has a sediment, if it is milky or cloudy, if it is pale or discolored, stringy or ropy, your kidneys and bladder are in a dangerous condition and need immediate attention, or the consequences may prove fatal. Dr. David Kennedy's Favorite Remedy is the one medicine that really cures all diseases of the kidneys, liver, bladder and blood, rheumatism, dyspepsia and chronic constipation, and it will take you but a short trial to convince yourself of its wonderful curative power. When first informed that the operation would perhaps be necessary his holiness began to inquire about it. Turning to Dr. Lapponi with his usual familiarity he asked, "Will it be painful? Remember, I cannot stand much pain."

Instead of Dr. Lapponi, Dr. Mazzoni answered, "I can assure your holiness that you will feel no pain. A little cocaine will deaden all sensation."

Pope Leo retorted at once, "Remember, you said the same thing when you extracted that cyst a few years ago."

Dr. Mazzoni replied, "That operation went very well, but this can hardly be called an operation." The pope then concluded, "Then do

whatever you think best."

All Excluded from Room When the operation took place nobody was allowed in the room beside the doctors except Pope Leo's valet, Pio Centra: even his nephew. Count Pecci, left the room to await with extreme anxiety in an adjoining hall the result. The doctors, desiring a strong light, had the window widely opened, but as it faces the bed the light offended the weak eyes of the pontiff, so that it was thought desirable that he should reverse his position. As soon as this was proposed the pope himself made a movement, showing again that spirit of activity and determination which seems constantly to inspire him. Dr. Mazzoni, however, did not give him time to leave the bed, but taking him in his arms literally turned the pontiff about. Pope Leo smiled and exclaimed, "Bravo, professor. I congratulate you. Although I have become so light, I must still be rather heavy.'

Both the doctors laughed and were at the same time astonished at the brightness of the pontiff when oppressed by such a dangerous illness and on the point of undergoing a surgical operation for the extreme necessity of his life.

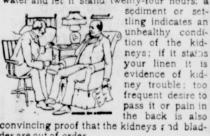

Apparently Suffered No Pain.

Pope Leo remained sitting up in bed during the whole time of the operation without need of support. When Dr. Mazzoni substituted the pravaz needla with a potain aspirator the pope did not even notice it, going through the whole affair without emitting the slightest lament and without showing my feeling of pain. He was extremely pale, almost diaphanous and somewhat tremulous. As soon as the operation was closed his holiness felt much relieved. His eye from an expression of languid melancholy assumed its usual vivacity, illuminating the emaciated face. Dr. Mazzoni at once administered a cordial which the pontiff took willingly, thanking him with a grateful look for the brave struggle to save his life. He afterwards expressed a desire to see the iquid which had been extracted from his thorax. Both doctors assured him that his wish would be gratified later. The pontiff then asked for minute a

After half an hour's peaceful and apparently refreshing repose the pope awoke and inquired about the doctors. Hearing they were in the next room he said: "I thought they had gone. What do they stay here for? What are they plotting??" Dr. Lapponi, reentering the room, said:

Oyster Bay, July 8.-Secretary of State John Hay is a guest of President Roosevelt at Sagamore Hill. Matters of grave importance to this country in its international relations were under consideration. The conclusions reached at the conference are not disclosed, both the president and Secretary Hay regarding it as inexpedient at this time to discuss for publication the details of their work. To two sub jects of serious concern most of their attention was turned. They considered in all its phases the Russian situation, particularly with respect to been determined would be forwarded the night. TO SUCCEED GIL

Sixteenth District Is the Question.

CANDIDATES

For the Place and the Contest Prom-Reached - Interesting Review of Former Political Campaign.

From a Staff Correspondent.

Columbus, July 8.—The resignation of Hon. Joseph J. Gill, of Steubenville, as congressman of the Sixteenth district, has furnished the politicians with food for speculation and has set them wondering what step he may take next. Having acquired an organ at the state capital, the Dispatch, it has been intimated that he may move to Columbus in order that he may take a more active part in state politics. But Mr. Gill says his resignation was forced by ill health and gives out the impression he does not desire to enter into politics in a strenuous way. If it is his purpose to remain in politics it would seem strange that he should give up an office which carries with it such prestige and in which he could accomplish more politically than he could without. His retirement was wholly unexpected and has caused much guessing.

There will be an interesting fight for Mr. Gill's place. Among those mentioned as candidates are the following: Ex-Prosecutors C. L. Weems B. Worthington, of Belmont county; Judge John A. Mansfield, E. E. Erskine and Judge W. McD. Miller, of Jefboth she and Bird were arrested by ferson county; General D. A. Hollings-Chief Wyman. Interest in the News Review Voting Contest Is Growing.

HOW THE LIST STANDS

Anderson is again at the top of the list with Neal and Lounds less than a hundred behind. A large batch of votes came in last evening and the contest is being watched with more interest than ever before. Every reader of the News Review is more or less interested, and not a single coupon of the daily issue is being lost.

The contest is now at a stage where the rival candidates are very closely matched, and the enthusiasm of the supporters of the several candidates is bound to grow as the end approaches. Don't wait too long to cast your votes, however, they count just as much when turned in at one time as at another. HAND WORK SUPERSEDING.

The fact is becoming more thorough ly demonstrated as the years go by that the old style products of handmoulded brick is superseding the wire cut or machine made brick quite rapidly. The machine product is now selling from \$6 to \$7 per 1,000, while the hand moulded readily bring \$10 per 1,000 and are in great demand. Two yards along "Brick Yard Bend" are already making a specialty or this line -Miror's at Empire, and the Claymont works at Zalia, W. Va. In fact these two firms are away behind with orders, so great is the demand. Other yards are constantly adding to their hand moulding facilities, and the avo cation of the old hand moulder is fast returning

The reasons for the demand are manifold, but the most potent are that machine made brick will not stand tae fire when used in furnace and boiler lipings, where they come in direct contact with the heat. THE WILLIS TAX.

A fee of \$1,000 was paid by the East Liverpool Potteries company last week to the secretary of state, which represents the tax imposed on its capital stock of \$1,000,000 under the Willis law. A similar fee will be paid by the Knowles, Taylor & Knowles company. which has the same capitalization. These are the only manufacturing concerns in East Liverpool which have a capital stock of a million. The new tax laws are yielding greater returns than originally anticipated. The state is wealthier now than ever before.

This tax is considered unjust by many manufacturers. A prominent local boss potter gives it as the reason for the continued non-expansion of the industry in the city.

TRADE CONDITIONS.

HAS LEFT PUBLIC LIFE FOREVER

Resignation Is With Gov. Nash, Talks.

In sending his resignation as congressman from the Sixteenth district to Governor Nash, J. J. Gill, of Steubenville, wrote as follows:

tion as representative in the Fiftyeighth congress from the Sixteenth congressional district of Ohio, to take effect upon the election and qualification of my successor.

"In this communication it will not be in order to make extended reference to the reason for this action, but cere regret that the state of my health. which is the sole consideration, is such as to compel this step, taken in accordance with what seems to me to be the prudent advice of physicians. J. J. GILL."

In the following interview Mr. Gill suffering. enters more in detail into the reason for his retirement to private life. He

has involved the abandonment of many cherished plans for activity in political life. SUFFRAGE FOR THE NEGRO **MUST WAIT FOR EDUCATION**

By Rev. Dr. LYMAN ABBOTT of New York

HE NEGRO QUESTION IS A NATIONAL PROB-LEM, NOT A SECTIONAL ONE. The north and the south combined to bring the negro here, and because we in the north couldn't use him in our industrial development we let him go to the south. Later the conscience of the north, re-enforced by commer-

cial interests, it must be admitted, abolished slavery. By national action we made the solution of the negro problem a national question.

IT IS CLEAR THAT WE OF THE NORTH CAN'T COMPEL BY FORCE THE ELEVATION OF THE BLACK MAN. WITH THE SWORD YOU CAN SEVER MANACLES, BUT YOU CANNOT LIFT UP A MAN BY THE SAME MEDIUM.

We must not go into the south with advice in a holier-than-thou spirit nor acting as though we belonged to the wiser-

than-thou class. Neither force nor Phariseeism ever converted a race.

SUFFRAGE MUST WAIT FOR EDUCA-TION. EDUCATION IS PRIMARY: POLIT-ICAL RIGHTS ARE SECONDARY. WE HAVE TRIED THE EXPERIMENT OF GIVING TO THE NEGRO SUFFRAGE FIRST AND EDU-CATION AFTERWARD, AND BITTERLY HAS THE COUNTRY SUFFERED FROM

OUR BLUNDER. No man ever should receive the power to control other men until he is able to exercise such control.

The negro race is at the present time inferior to the Anglo-Saxon race. We have ten centuries of civilization behind us. They have had countless centuries of barbarism and two centuries of servitude behind them. The human race slowly emerges from the brute. If we give power to the brute, the result will be wreck and ruin.

I plead for the honor of the American people. Fifteen million men, ignorant, vicious, dishonest and intemperate, will be a terrible millstone to hang around the neck of the nation. Fifteen million men, chaste, honest, industrious-what a power for the nation!

WHETHER THE AFRICAN RACE WILL BE FETTERS FOR THE FEET OF THE NATION OR WINGS FOR FLIGHT DEPENDS UPON EDUCATION.

There is a well-defined rumor affoat that the Manufacturers' gas corporation is shaping up to discriminate in its rates in this city. Report has it the potteries are to be taken care of in the price charged for gas; which, if true, will prove a boon to the great industry of East Liverpool. But it is added that the individual consumers will have to "pay the freight" at a much higher rate. It is a sad proposition if the citizens shall have to submit to such practices from the monopoly without attempting some method

Congressman Gill's self-inflicted re tirement from political life came as omewhat of a surprise. He gives poor health as the cause for his action and states that he has been considering the retreat into private life for nearly a year. Where there is one man to give up a political job there is always a dozen anxious to bleed for the dear public. Mr. Gill's case will prove no exception to the rule, and there will be a stir and fuss until his successo is elected.

WELLSVILLE

_______ MR. PATTERSON GOT THE MARBLE HEART

WHEN HE MADE REQUEST TO WELLSVILLE COUNCIL.

Speech Urging the Construction of New Reservoir Caused All the Trouble.

Monroe Patterson was given the marble heart" by council last night when that body refused to assist him n any way towards the construction of a reservoir in the rear of his pottery here for second supply water purposes.

Mr. Patterson addressed council at some length on the matter, stating that \$10,000 would be the cost of his scheme. James Bissett, member from the Fourth ward, made a motion to adjourn in the very midst of Mr. Patterson's speech, and it only lacked one vote of carrying.

Mr. Patterson then modified his request and asked for only \$2,000, which was voted down quickly and he retired with a tired feeling.

It was a regular meeting of council and considerable business was transacted.

BLOODY BORDER WAR

Battle Still Called to Mind by Students of Colonial History.

BRILLIANT VICTORY ACHIEVED.

Indians Fled Before Advance of Rangers-Both Sides Suffer Heavily. Fight Took Place at Mouth of Kanawha in West Virginia.

Just on the eve before the outbreak of the Revolution there occurred a border war in West Virginia which has been so overshadowed by the greater conflict as to be almost forgotten by all save students of colonial history. It is by some called Cresap's

war, but is better known as Dunmore's The treaty following the defeat of Pontiac's conspiracy, in 1764, had semewhat helped affairs along the Virginia and Ohio border, but it had not been perfectly kept by either the Indians or the white men; and the Indians had kept it less than their white neighbors had done. Finally, in the spring of 1774, came the attack by Colonel Cresap, which is known as the Captive Affair. Then followed the murder at Yellow Creek of the family of the Iroquois chief, Tah-gah-jute, known to fame as Logan. This mas sacre was led by a villain name-l Greathouse, and was most cruel and unprovoked. It turned Logan from a friend of the whites into an avenging flend, and led to an immediate outbreak of frontier atrocities. Lord Dunmore, governor of Virginia, determined on a war, and ordered General Andrew Lewis to assemble an army at the Great Levels of the Greenbriar, now the site of Lewisburg, while he should gather another force at, Fred erick. Lewis was to march down to Kanawha to its junction with the Ohio where Dunmore was to meet him. As the royal governor did not do as he had promised, the campaign, with its battle and victory, fell to the lot of Lewis and his borderers. His army was a famous assemblage. Among those present were Evan Shelby, Isaac Shelby, Benjamin Harrison, Valentine Sevier, James Robertson, George Rogers Clark, Simon Kenton, Daniel Mor-Girty. Lewis' army was a notable collection of great fighters. Lewis obeyed his orders and moved to the mouth of the Kanawha. There was a trail led out in the direction they were going. Their way led directly across the wilderness mountains, and they had to cut their way foot by foot through the primeval forests. But this was a frontier army, and it made

Lewis concluded to tarry till the rear party came up with supplies before moving up the river to join Dunmore. One morning, while waiting, two men | chanics' hall was thronged with those went out hunting. At length 10@12c. as the evening shadows fell, the borderers had driven the redskins seemingly as far as they could be forced. The fight was likely to be a drawn one. Then Lewis sent three companies under Isaac Shelby, to made a detour and come in on the enemy's flank. The Good Old Times. We often hear people speaking of the good old times," as if life in colonial days was a summer dream of lazy luxury. And sometimes we hear somebody comparing the present day life with that of the former times much to the detriment of these days. Such an idea can grow out of nothing but ignorance. It flourishes rankly in the mind of the perosn who gets his the glamorous pages of historical well can be. Frightful Loss of Life in Collision on Southern Railway in Virginia.

ENGINEER DISREGARDS ORDERS

Victims of Wieck Mostly Colored Peo ple-Scene of Panic Follows Crash. Man Responsible for Accident Escapes Uninjured.

Washington, July 8 .- Twenty-three persons were killed and hine persons injured in a head-on collision on the Virginia midland division of the Southern railway at Rock Fish, Va. Passenger train No. 35 dashed into a local freight standing on the main line of the road at that point, wrecking both engines and the baggage and express cars of No. 35. The baggage car and the second-class passenger coach immediately following it telescoped. The coach was occupied mostly by colored people. The casualties thus far reported in detail are as follows:

35: Engineer McCormick, who was rid- ing anl collection. ing as a passenger on the freight; a colored fireman on freight.

The freight train was in charge of Conductor Brubeck and Engineer Hale and at the time of the accident was on the return run from Lynchburg to Charlottesville. Rock Fish station is midway between the two points and the track there is a single one. Engineer Hale had orders to get out of the way of the fast passenger train, but for some reason which has not yet been explained he had overstayed his time and had failed to take a siding so that the passenger train could pass. The trains came together with a horrible crash and a fearful scene of panic ensued when the ococcurred.

No. 35 was in charge of Engineer Davis and Conductor Mays. Engineer McCormick, who was a passenger on the freight train, was going to Charlottesville to take a train south at the time he met his death. The engineer of the freight escaped without injury It is estimated here that there were in all probability 120 passengers on the train, including those from Boston win Rooley, East End postoffice. 157-j and intermediate points.

It was at first reported that Baggagemaster Payne, of train No. 35, had met his death in the wreck. Later reports, however, show that this is in correct. He was caught under one of the coaches and was badly stunned, but later he revived and probably will recover. It is now said to be almost certain that of those killed 19 were FOR SALE-A Remington Standard colored persons, as the second-class coach which was telescoped was occupied almost exclusively by them.

Later advices from the scene of the wreck are that the freight train which was on the main track, had been there for six minutes longer than the orders directed when the collision occured

Do Not Be Deceived. You have Kidney Trouble, and You Do Not Need a Physician to Tell You So.

Pain in the back is an almost infallible sign of kidney disease; a surer sign is the condition of your urine. If you have a pain in the back, then look to the condition of your urine. It is easily done. Take a glass or tumbler and fill it with urine; after it has stood 24 hours, if it has a sediment, if it is milky or cloudy, if it is pale or discolored, stringy or ropy, your kidneys and bladder are in a dangerous condition and need immediate attention, or the consequences may prove fatal. Dr. David Kennedy's Favorite Remedy is the one medicine that really cures all diseases of the kidneys, liver, bladder and blood, rheumatism, dyspepsia and chronic constipation, and it will take you but a short trial to convince yourself of its wonderful curative power. G. F. Sammer of No. 409 Tioga street, Syracuse, N. Y., in a recent letter says:

"I was afflicted for years with severe pains in my back and kidneys. I tried many doctors and many medicines, but got no relief. I bought a bottle of Dr. David Kennedy's Favorite Remedy and it has entirely cured me."

It is for sale by all druggists in the New 50 Cent Size and the regular \$1.00 size bottles—less than a cent a dose. Sample bottle-enough for trial, free by mail. Dr. David Kennedy Corporation, Rondout, N. Y.

The doctors consider that altogether his holiness has had a rather peaceful night.

All is tranquil at the vatican this morning. The medical bulletin which will be issued at the usual hour is awaited with great expectation.

I thank you." the patient has in breathing. Seeing Lapponi always at his bedside, the pope just before falling asleep said kindly to him: "Now, it is your turn tonight. You must sleep." prevails tonight, the excitement of yesterday having to a great extent died out with the revival of hope after the announcment that yesterday's operation was attended with success.

Rome, July 8 .-- The marvelous vitality and recuperative energy of the pope were never so forcibly demonstrated as by the series of events preceding, accompanying and following the operation. When first informed that the operation would perhaps be necessary his holiness began to inquire about it. Turning to Dr. Lapponi with his usual familiarity he asked, "Will it be painful? Remember, I cannot stand much pain."

Instead of Dr. Lapponi, Dr. Mazzoni answered, "I can assure your holiness that you will feel no pain. A little

cocaine will deaden all sensation." Pope Leo retorted at once, "Remember, you said the same thing when you extracted that cyst a few

years ago." Dr. Mazzoni replied, "That operation went very well, but this can hardly be called an operation.'

The pope then concluded, "Then do

whatever you think best."

All Excluded from Room. hen the operation took place body was allowed in the room beside the doctors except Pope Leo's valet, Pio Centra: even his nephew, Count Pecci, left the room to await with extreme anxiety in an adjoining hall the result. The doctors, desiring a strong light, had the window widely opened, but as it faces the bed the light offended the weak eyes of the pontiff, so that it was thought desirable that he should reverse his position. As soon as this was proposed the pope himself made a movement, showing again that spirit of activity and de-

termination which seems constantly to inspire him. Dr. Mazzoni, however, did not give him time to leave the bed, but taking him in his arms literally turned the pontiff about. Pope Leo smiled and exclaimed, "Bravo, professor. I congratulate you. Although I have become so light, I must still be rather heavy"

Both the doctors laughed and were at the same time astonished at the brightness of the pontiff when oppressed by such a dangerous illness and on the point of undergoing a surgical operation for the extreme necessity of his life.

Apparently Suffered No Pain.

Pope Leo remained sitting up in bed during the whole time of the operation without need of support. When Dr. Mazzoni substituted the pravaz needle with a potain aspirator the pope did not even notice it, going through the whole affair without emitting the slightest lament and without showing my feeling of pain. He was extremely pale, almost diaphanous and somewhat tremulous. As soon as the operation was closed his holiness felt much relieved. His eye from an expression of languid melancholy assumed its usual vivacity, illuminating the emaciated face. Dr. Mazzoni at once administered a cordial which the pontiff took willingly, thanking him with a grateful look for the brave struggle to save his life. He afterwards expressed a desire to see the liquid which had been extracted from his thorax. Both doctors assured him that his wish would be gratified later. The pontiff then asked for minute of

After half an hour's peaceful and apparently refreshing repose the pope awoke and inquired about the doctors. Hearing they were in the next room he said: "I thought they had gone. Throughout the vatican absolute calm What do they stay here for? What are they plotting??" Dr. Lapponi, reentering the room, said:

"We were preparing bulletins re garding the operation, saying it was successful in every respect." Dr. Mazzoni added, "We must inform the public which is waiting with such trepidation, especially as it is so easy to have inexact news spread."

Russian Situation and Alaska Bound ary Question Principal Subjects. Hanna Leaves for Bar Harbor-Politics Has Nothing to Do With Visit.

Oyster Bay, July 8.-Secretary of State John Hay is a guest of President Roosevelt at Sagamore Hill. Matters of grave importance to this country in its international relations were under consideration. The conclusions reached at the conference are not disclosed, both the president and Secretary Hay regarding it as inexpedient at this time to discuss for publication the details of their work. To two subjects of serious concern most of their attention was turned. They considered in all its phases the Russian situation, particularly with respect to the B'Nai B'Rith petition, which it has been determined would be forwarded to the Russian government, and the Alaskan boundary question, which next month is to be taken up for what is hoped may be final adjustment by the American and British commission in London.

Alaska Boundary Question.

After luncheon President Roosevelt discussed with Secretary Hay and Senators Fairbanks, Hanna and Kearns the Alaskan boundary matter. Senator Fairbanks was a member of the joint high commission which had that question under consideration severa! years ago, and the president and secretary took this opportunity to go over the matter with him. It is understood that the papers in the American case have been made up and the case is ready for presentation. Secretary Root, Senator Lodge, of Massa chusetts, and former Senator Turner, of Washington-the American members of the commission-will leave for England in the course of a month to begin the actual work of the commission in London. After a pretty full discussion of the question, including consideration of the final instructions te the American commissioners, Senwish to see myself these bulletins in ators Fairbanks and Kearns left the president's home and took a late afternoon train for New York.

It is regarded as likely that some developments in the Russian situation may be expected in a few days.

Purloined an Automobile.

Boston, July S .- John Lankershim. a sophomore at Harvard college, was held in \$1,200 for a further hearing on July 16 on an accusation of breaking into a vehicle agency and the larceny of a \$900 racing automobile. Lankershim was arrested as he was packing a dress suit case to sail for Paris. The young man protested that his father was a millionaire banker of Los Angeles, Cal., who could pay several times over the value of the alleged stolen machine. Lankershim was locked up pending a reply from his father in Paris about bail.

Augusta, Me., July 8.-Mrs. Blaine. widow of the late James G. Blaine, is reported to be seriously ill at her home in this city. Her children, Mrs. Peale, Mrs. Damrosch and James G. Blaine, are with her. Mrs. Blaine has been ill for some time and her condition is due to a general breaking down of the system.
